

CITRA CRYSTALS

Concentrated Cleaner Degreaser

CITRA CRYSTALS is a concentrated water soluble powdered degreaser and cleaner. It is designed for use on concrete and a wide variety of other washable surfaces. This super heavy duty product quickly emulsifies grease build-up and tough grime. It is safe to use on any surface not damaged by water including wood, plastic, metal and painted surfaces. CITRA CRYSTALS is biodegradable, non-toxic, non-corrosive, and non-caustic for added safety.

Formulation

High phosphate formula containing non-ionic and anionic surfactants and detergents with extra grease cutters, water softeners, and all natural citrus extract. Contains 88.0% active ingredients to give maximum economy.

Specifications

Form:	Granular
Color of Powder:	Orange
Color in Solution:	Lime Green
Odor:	Citrus
Density:	0.84 g/mL
pH of 10% Solution:	12.50 +/- 0.05
Foaming Properties:	Low
Solubility:	100% in Water
Freezing Point:	None
Storage Stability at 70° F:	Indefinite
Phosphates:	18.10
% Active Ingredients:	88.0

Application

This heavy duty concrete and equipment cleaner should be used as follows:

Heavily Soiled Concrete:	Wet floor with clean water, then sprinkle the detergent directly onto soiled areas. Scrub with a stiff broom and rinse with clean water.
Lightly Soiled Concrete:	Use 2 to 4 cups of detergent per 5 gallons of water. Swab onto surface, allow to penetrate, and scrub with a stiff broom. Rinse with clean water.
General Cleaning:	Use 1/2 to 2 cups of detergent per 5 gallons of water. Sponge, mop, or spray solution onto surfaces to be cleaned. Longer soak times or mild scrubbing action will facilitate soil removal.
Soak Tank Degreasing:	Use 1/2 to 1 pound per gallon of water. Hot water will provide ideal cleaning conditions. Cleaning will be faster in agitated tanks and when fresh solutions are used.
